A Battaglione Fucilieri always defends in a mission with the Defensive Battle special rule.

The Legions of Rome

While playing a Battaglione Fucilieri, whenever the rules talk about a Platoon read that as a Fucilieri Company. Where the rules talk about a Company, read that as a Battaglione Fucilieri.

Italian companies can have German Heer troops as support options. These platoons retain their own rules and ratings, counting as Allied Platoons (see page 183 of the rulebook).
