Special Rules

Batalion Puscasi HQ - p.167

Central Fire Control

Romanian Company Command teams cannot act as spotting teams for artillery bombardments.

When an Observer team from an artillery battery that has a Staff team has ranged in one battery and then orders an All Guns Repeat! Bombardment on the same Aiming Point in a subsequent turn, they may attempt to range another battery that has a Staff team on the same Aiming Point while continuing to control the original battery firing the All Guns Repeat! Bombardment.

Next turn the Observer team can order both batteries to fire All Guns Repeat! Bombardments while Ranging In another battery, and so on. Roll to hit with each battery separately.

Defend the Homeland

Romanian platoons may re-roll failed Motivation Tests to Counterattack in assaults.

Eastern Legions

While playing a Batalion Puscasi, whenever the rules talk about a Platoon read that as a Puscasi Company. Where the rules talk about a Company, read that as a Batalion Puscasi.

French Doctrine

When entrenched in Foxholes or Gun Pits, Romanian Gun teams can shoot over any Romanian Infantry team in Foxholes or Trenches, whether it shoots or not, when conducting Defensive Fire.
